HIBAH MOHAMMED SINDI

AI Engineer · Data Analyst · Generative & Agentic AI · MLOps

Riyadh, Saudi Arabia · +966 54 394 8873 · hibahsindi@gmail.com · linkedin.com/in/hibah-sindi · github.com/hibahdesu · kaggle.com/hibah1996

Certified TensorFlow Developer · Databricks Certified Data Engineer Associate · Microsoft Azure AI Fundamentals · Oracle Agentic AI Certified Foundations Associate

PROFESSIONAL SUMMARY

AI Engineer and Data Analyst with 3+ years of hands-on experience building LLM agents, multi-agent systems, RAG pipelines, and end-to-end data solutions. Co-founded an AI startup and shipped full-stack AI products (FastAPI, Next.js, CrewAI, MongoDB). At the Saudi Water Authority, led the Saudi Water Observatory's shift from fully manual work to AI-powered monitoring with production multi-agent systems and ML models. Holds 15+ professional certifications across AI, cloud, and data, with a dual background in Computer Science and Chemistry.

PROFESSIONAL EXPERIENCE

Data Monitoring & Analysis Specialist | Saudi Water Authority, Riyadh *12/2025 – Present*

- **Led the transformation of the Saudi Water Observatory from a fully manual workflow to AI-powered monitoring**, introducing ML models and multi-agent systems that now automate data collection, classification, reporting, and stakeholder updates.
- Collect, scrape, and analyze large-scale data from all major social media platforms using Python and platform APIs, delivering insights that support leadership decisions.
- Built the authority's first machine learning model to classify citizens' social media posts into complaints and service issues (02/2026 – 07/2026).
- Co-built a multi-agent AI system that automates the full daily monitoring workflow: data collection, cleaning, and classification of complaints, cases, spam, sentiment, city, neighborhood, and topic; duplicate-user detection; final file generation; and automated email delivery. In production and improved daily (08/2026 – Present).
- Built a real-time case-monitoring multi-agent system that runs every 4 hours: it collects posts on an issue by city and neighborhood, classifies cases and sentiment, and emails the data and a summary to stakeholders (09/2026 – Present).
- Built a topic-tracking multi-agent system for high-profile events (e.g., the Minister of Environment, Water & Agriculture on the Socrates podcast): it filters spam and off-topic posts, scrapes comments across platforms, classifies topic sentiment, refreshes engagement, and produces a multi-sheet dataset and report (09/2026 – Present).

Co-Founder & AI Engineer | Kaleem.AI *09/2024 – 04/2026*

- Co-founded an AI startup and built the product end to end: Next.js frontend, FastAPI backend, and MongoDB database.
- Architected and deployed multi-agent AI systems with CrewAI that power the platform's core intelligence.

Software Engineer Leader (Volunteer) | MASAR *02/2025 – 05/2026*

- Led software engineering work on frontend and backend components with Next.js and MongoDB, building APIs and third-party integrations.

AI Engineer Intern | Launched (Misk Global Trainingship Program) *10/2024 – 12/2024*

- Built AI agents with OpenAI and LangChain, including RAG systems that extract knowledge from PDFs, documents, and web content.
- Delivered an AI-powered voice and chat application integrating ElevenLabs voice technology with a Next.js, React, and MongoDB stack.

ML Engineer & MLOps (Training Program) | Qafza *08/2024 – 03/2025*

- Deployed, monitored, and scaled machine learning models in production environments.
- Built and optimized ETL pipelines that integrate large datasets from diverse sources for ML workloads.

Data Analyst & AI Researcher (3 roles) | Excelerate *01/2025 – 03/2025*

- Led a team of data analysts through data cleaning, workflow automation, EDA, and student-churn analysis to improve retention.
- Built interactive Power BI and Looker dashboards; researched prompt engineering techniques to improve LLM output accuracy.

AI Applications & Market Research Analyst | Lun R&D *05/2024 – 08/2024*

- Developed a recommendation system using collaborative and content-based filtering, guided by market analysis.

AI Software Engineer Fellow | HeadstarterAI *07/2024 – 09/2024*

- Built and deployed 5 AI projects in 5 weeks (React, Next.js, LangChain, OpenAI, Clerk, Vercel), including a team-built RAG customer support agent.

AI & ML Intern | SHAI *03/2024 – 10/2024*

- Developed ML models with Python, TensorFlow, and Scikit-learn and presented results in Power BI.

Earlier experience: Data Analyst Freelancer (2025) · AI-Driven Content Creator, Excelerate × Saint Louis University (2025) · Data Science Intern, 360DigiTMG (2024) · Data Analyst, Beam Data (2024) · Freelance Developer & UI Designer (2022 – 2025)

SELECTED PROJECTS

AI-Powered News Scraper | Python, Streamlit, Pandas, LLMs *2026*

- Automated a daily manual task: users upload an Excel file of article links; the app scrapes each page and uses an LLM to extract title, date, and content into a structured Excel report.

InfinityCastle — Cinematic Data Experience | Next.js, GSAP, Power BI · Live Site · Demo *2025*

- Built a scroll-driven web experience with a custom box-office scraping pipeline and embedded Power BI dashboards, surfacing insights such as a #2 global ranking and $119.8M September gross.

Kaggle — Elite Training Programs | Machine learning *2024*

- Placed **13th out of thousands** of participants; led data cleaning, EDA, and feature engineering for models predicting course completion and dropout drivers.

Diamond Price Prediction | SHAI · Regression, Power BI *2024*

- Built and deployed a regression model to forecast diamond prices, with Power BI visuals of pricing drivers.

Fraud Detection, Churn Prediction & RFM Segmentation | Classification, clustering *2023 – 2024*

- Built fraud and churn classification models and ran RFM segmentation and cohort analysis on retail data to guide retention strategy.

SKILLS

- **Generative AI & LLMs:** OpenAI, Llama, LangChain, CrewAI, AI agents & multi-agent systems, RAG, prompt engineering, LLMOps, chatbots, voice agents (ElevenLabs, Whisper)
- **Machine Learning:** Python, Scikit-learn, TensorFlow, Keras, PyTorch, feature engineering, NLP, computer vision, recommendation systems, churn & fraud modeling
- **MLOps & Data Engineering:** model deployment & monitoring, Docker, CI/CD, ETL pipelines, Spark, Databricks, Snowflake, BigQuery, Azure, AWS, web scraping (BeautifulSoup), APIs
- **Data Analysis & BI:** SQL, Pandas, NumPy, Power BI (DAX, Power Query), Tableau, Looker, Excel, EDA, data cleaning, data modeling, data storytelling
- **Software Engineering:** FastAPI, REST APIs, Next.js, React, JavaScript, HTML/CSS, Tailwind, MongoDB, Streamlit, Git/GitHub
- **Languages:** Arabic (native), English (professional)

PROFESSIONAL CERTIFICATIONS

AI, Machine Learning & Generative AI

- **Oracle Agentic AI Certified Foundations Associate** — Oracle · 10/2026 – 10/2028
- **Microsoft Certified: Azure AI Fundamentals (AI-900)** — Microsoft · 10/2025 · ID 90797628AC4E6B90
- **TensorFlow Developer Certificate** — TensorFlow (Google) · 02/2024 – 02/2027
- **LLM Practitioner (Applied Prompt Engineering & LLMOps)** — SDAIA
- **Generative AI Foundation Nanodegree** — Udacity
- **AI Programming with Python Nanodegree** — Udacity
- **DeepLearning.AI TensorFlow Developer Professional Certificate** — DeepLearning.AI (Coursera)
- **LLMOps Concepts; Prompt Engineering with the OpenAI API** — DataCamp · 2025

Data Engineering & Data Science

- **Databricks Certified Data Engineer Associate** — Databricks · 06/2024
- **IBM Data Science Professional Certificate** — IBM (Coursera)
- **Applied Data Science Specialization** — IBM (Coursera)

Data Analytics & Business Intelligence

- **Data Analyst in Power BI Career Track** — DataCamp · 06/2025
- **Google Data Analytics Professional Certificate** — Google (Coursera)
- **Excel for Data Analysis Series** — DataCamp · 09/2025 – 11/2025

EDUCATION & TRAINING

B.Sc. Computer Science (GPA 3.85/4.0) *2021 – 2024*
B.Sc. Chemistry (GPA 3.79/4.0) *2014 – 2018*
Women in STEAM — AI Track | KAUST *05/2025 – 04/2026*
Data Engineering Bootcamp | Saudi Digital Academy × WeCloudData *02/2024 – 06/2024*
Machine Learning Bootcamp | Saudi Digital Academy × Clarusway *09/2023 – 12/2023*
Elevate Program — AI & Business Intelligence | Google Cloud & SDAIA *04/2023 – 08/2023*
